

BHS PROVIDER UPDATES

Pathways to Well-Being eLearning Booster

Location: ONLINE at Behavioral Health Education and Training Academy (BHETA)

<http://theacademy.sdsu.edu/programs/BHETA/pathways/>

Course: # BHE0067

Course title: **Pathways to Well-Being Booster**

As a reminder, BHS *Pathways to Well-Being*, in collaboration with The Academy for Professional Excellence BHETA, have created an eLearning Booster training to serve as a resource and refresher for BHS providers.

This eLearning Booster resource for Behavioral Health Services (BHS) providers includes:

- A brief overview, strategies, resources, and tools that will help providers navigate the teaming requirements and paperwork
- Relevant forms, documents, and resources for viewing and/or immediate download
- Examples of *Pathways to Well-Being* scenarios and how to best manage a variety of common *Pathways* situations, specifically eligibility determination and the processes that follow
- Flexibility to allow for researching specific areas of interest and need rather than completing the training in its entirety
- Technical Assistance tips and procedure refresher for BHS providers who may have been trained in the past, but have had limited actual *Pathways* experience thus far

We welcome your agency staff to utilize this tool at their convenience. The approximate time to complete the training is 1 hour.

Log on or create a new account by accessing BHETA LMS login at:
