

Where are you with CCR Implementation?

County: Riverside

Date:

What is working well?	What have been your challenges?	What do you plan on doing moving forward?
<p>What aspects of your implementation are you most proud of? What programs & agencies have been involved? What would your staff say is working well? What would your partners say is working well? What has been a challenge you've been able to overcome? How did you do it?</p> <p>Proud of:</p> <ol style="list-style-type: none"> Riversides various agencies (Children's, probation, Dept. of Behavioral Health, CCL, RCOE) have collaborated very well to best inform care providers of changes and to best assist them in the transition process. That collaboration will continue in regards to developing future processes as well. Monthly Provider Meetings: We have been able to prepare our current FFA and group homes/STRTP for the changes that they will need to prepare for, as well as, how to best transition within CCR compliance. Riverside County has had over 3000 RFA referrals since January 1, 2017. Success in transitioning youth from congregate care into lower levels of care. Program Statement Review process – DBH, Probation and Children's conduct joint reviews Probation (RCP) has created a dedicated and centralized unit to assist with the development and implementation of CCR Probation has been able to collaborate effectively with community based organizations and care providers in helping them prepare for CCR RCP has received favorable feedback from staff and collaborating agencies 	<p>Where are you stuck? What are some questions that you still have? What would your staff say isn't working well? What would your partners say isn't working well?</p> <p>Clarification still needed:</p> <ol style="list-style-type: none"> RFA process continues to be challenging for the following reasons: <ol style="list-style-type: none"> It appears that legislation is written for dependency youth and not as much for ward youth. Working out new situations in regards to RFA. having various perceptions as to the intent of ACLs. Working with providers to determine billing requirements. It appears that counties are asking for different proof of services and various methods of providing proof. I believe the counties would benefit from a standardized method to collect service provision information 	<p>What do you feel are important next steps? What are your future plans to address your challenges? What are your other plans to move implementation forward? What does your staff think about your next steps? What do your partners think about your next steps?</p> <p>Next Steps:</p> <ol style="list-style-type: none"> Plan on reviewing SCI process and making needed adjustments based on the new rate structure Probation will continue to conduct trainings to assist providers in the transition process. Also focus on educating new families that have not traditionally worked with probation in the past. Involve education partners at all levels of CCR implementation Children's will be developing a CFT committee, including DBH, RCP, RCOE, in order to work out details. As an example this group will examine how screenings for placements will occur using input from all three agencies

9. RCP facilitates all probation youth CFT meetings independent of the case carrying PO, which seems to have ensured no biases between the youth, family and PO.

10. RCP has developed a CFT guide and presented it to providers so they understand the CFT process.

Challenges:

1. Some of the challenges have been needing to wait for information from the State. Due to the many changes, several of our care providers are anxious and have had many questions. Several time we have not been able to answer questions, due to waiting for direction/clarification ourselves.

2. RCP needed to train Court Officers to request Court authorization for CLETS so that potential resource families could be cleared for placement

--	--	--

Implementation Scale: Rate your implementation on a scale from 0-10, where 0 means nothing has been done around implementation and 10 means that you are at full implementation of CCR.

If not already identified, what do you need to do to move up one number? _____
