Spotlight

DECEMBER 2018

- Customize the SchooLink Referral Form for your school(s).
- Distribute the SchooLink Referral Form to school staff.
- Follow the referral process in your Annual SchooLink Plan.

SchooLink providers rely on student referrals from school staff. The new SchooLink training provides helpful information about how to set up a standardized referral process using the SchooLink Referral Form.

Encourage your school staff partners to review the SchooLink training module on referrals as well so they understand the required referral, assessment and consent process to enroll students in SchooLink services.

Please contact your supervisor with any questions. The County COR is also available to provide Technical Assistance through your Program Manager.

Thank you for all that you do for San Diego kids!
