Webinar: Supervision with CANS
April D. Fernando, PhD

Learning Objectives

- Endorse how the ICPM and Transformational Collaborative Outcomes Management (TCOM) provide a framework for collaboration and developing a shared vision for children, families, providers and systems.
- Identify strategies to develop practice skills and competencies for clinicians in using the CANS to support child/youth and family change.
- Describe how the CANS can support professional development through understanding the needs and strengths of children/youth and families.
- Implement TCOM principles in supervision, coaching and continuous quality improvement efforts, including: collaboration, transparency, and use of data to inform decision-making.
- Through a case example, demonstrate how to support the use of the ICPM principles and the CANS in developing a treatment plan.
