There are critical intersections between adult maltreatment and trauma over the life course and research, practice, and training for caseworkers and supervisors from a trauma-informed framework is critical. Join us for this interactive, foundational training on trauma informed approach for APS supervisors. Explore the biological, programmatic, and policy levels of this complex topic and take away practical tips and tools to use on the job.

Description

Upon completion of this training, the participant will be able to:

1. Define trauma according to SAMHSA TIP 57 (2014) using the three-part model.
2. Identify one key study that shows adverse childhood experiences cause later in life disease, disability and early death.
3. Distinguish physical safety threat and emotional safety risk as a decision tree.
4. Use safety planning (plus time/cite laws) to develop supervisory intervention.

Registration

REGISTRATION PROCESS: Please register through your county training coordinator.
If you have any questions, please contact: apstraining@sdsu.edu
REGISTRATION DEADLINE: February 12, 2021

Intended Audience

This workshop is intended for new supervisors or experienced staff who may require a refresher.

Presenter

Gabriella Grant, Director, California Center of Excellence for Trauma Informed Care
Ms. Grant oversees the Center’s research, program and professional development as well as policy analysis activities. She brings to the Center a long history of professional experience developing innovative programs for female offenders, crime victims, and domestic violence survivors. Through this work, Ms. Grant has also gained an understanding of how program design, policies and procedures can positively affect the people being served. She earned her Master’s in Public Policy from Johns Hopkins University. Ms. Grant has taught at the primary, secondary and university levels and has trained professionals, advocates and consumers in a wide variety of settings.
