APS Leaders Institute Workshop

APS Funding and Realignment: What Does it Mean to You?

VIRTUAL WORKSHOP

February 19, 2025 — APS Funding and Realignment: What Does it Mean to You?

This workshop will provide an overview of how the Adult Protective Services (APS) program is funded in California at both state and county levels. The workshop will explain realignment, how it impacts funding for county programs and implications to APS funding. The workshop is a primer for adult services and APS leaders, including discussion on how to use this knowledge when communicating with county leaders about program budget, funding and resources for the APS program.

Ardee Apostol is our lead presenter and comes to us from San Mateo County, with many years of previous experience in San Diego County. The panel will include representation from other counties to share how intra-county budgeting requirements are managed.

Workshop Overview

- ❖ Presentations from county fiscal leaders
- ❖ Discussion with panelists on policy and messaging
- ❖ Question and answer session
- ❖ Breakout groups
- ❖ Debriefing with all participants
